DETAILED ACTION

1. In response to Applicant's IDS and Request for RCE filed February 18, 2005, the Examiner has identified prior art that will be applied in an art rejection. However, since the features of the generic claims (identified below) are now subject to an art rejection, a requirement for restriction is currently asserted. The claims are referred to as numbered prior to allowance and include the previous correction under Rule 1.126. Claims 2-89 are pending.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: Directed toward negotiations software with the details of a contract router (claims 3, 4, 6-9, 31-33, 35-37).

Species II: Directed toward negotiations software with the details of active templates and fields (claims 10-29, 38-57).

Species III: Directed toward negotiations software with the details of processing negotiations according to internationally accepted methods (claims 58-69).

Species IV: Directed toward negotiations software with the details of defining community participation rules and registering new members (claims 70-89).

Art Unit: 3623

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 2, 5, 30, and 34 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 3623

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susanna M. Diaz whose telephone number is (571) 272-6733. The examiner can normally be reached on Monday-Friday, 10 am - 6 pm.
